Gabriola Health Care Foundation

Notes to financial statements

(unaudited)

For the year ended December 31, 2009

1. Nature of entity

The Gabriola Health Care Foundation is a British Columbia not-for-profit society incorporated under the British Columbia Societies Act on March 28, 2007 and is a registered charity for Canadian Income Tax purposes. Its registration number is 85193 0586 RR0001.

2. Summary of Accounting Policies

Fund accounting

The Foundation follows the deferral method of accounting for contributions. In addition, in 2008, in accordance with an agreement with the Gabriola Lions Club, the Ambulance Society and certain other donors, the Board established a separate fund for amounts donated for the specific purpose of acquiring equipment for, or related to, the operation of the urgent care room.

Revenue recognition

Unrestricted contributions are recognized as revenue of the operating fund in the year received or receivable if the amount to be received can be reasonably estimated and collection is reasonably assured. Restricted contributions are deferred and recognized as revenue of the year in which the related expenditures are incurred. Restricted contributions used to acquire capital assets are recognized as revenue at the same rate as the related assets are amortized or written off.

The main purpose of the Foundation's activities at this time is the raising of funds for the construction and equipping of a medical facility. It is the Board's view that contributions received by the Foundation are received on the understanding that they will be used for that purpose. It is therefore the Board's view that all contributions received by the Society are restricted for that purpose and are to be treated as *restricted contributions* as set out above.

To be included in income in a year contributions must have been received or, if mailed, must bear a post mark date in the particular year.

Pledges of the contribution of cash and in-kind contributions of assets are recognized at their estimated value at the time of the contribution.

Unrestricted investment income as well as investment income realized on restricted funds is recognized as income in the operating fund when earned.

Contributed securities

Contributed securities are recorded at their receipted value, which is the market value of the securities at the time the donation is made. They are sold at the first opportunity. Any gain or loss on the disposition, and the cost of the disposition, is recorded as income or expense at the time of the disposition.

Capital assets

Property and equipment is recorded at cost (or receipted value in the case of contributed items) and is amortized over the estimated useful life of the assets on a straight line basis using the following useful lives:

- (i) Office furniture and equipment - 10 years
- (ii) Backup electricity generator - 5 years
- (iii) Medical equipment - 5 years
- (iv) Electronic office equipment - 3 years

Full amortization is claimed in the year of an asset is acquired and no amortization is claimed in the year of its disposition.

Use of estimates

The preparation of financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from these estimates. These estimates are reviewed annually and as adjustments become necessary they are recorded in the financial statements in the period they become known.

3. Tax status

The Foundation is tax-exempt under paragraph 149(1)(f) of the Income Tax Act (Canada).

**Gabriola Health Care Foundation****Notes to financial statements**

(unaudited)

For the year ended December 31, 2009

4. Donated services

The Foundation is managed and administered by many valued and dedicated volunteers. The value of their services is not recognized in the financial statements due to the difficulty in determining its fair value.

5. Change in accounting policy

In 2009 the Foundation changed from the cash basis of accounting to the accrual basis. As a result revenues are recognized when they become receivable and expenses are recognized when they are incurred. Expenditures which will benefit more than one year will be deferred and the expense reflected in the periods to which it relates. All prior years financial results have been recomputed on the accrual basis and are included in this set of statements to provide a basis for year-to-year

6. Capital assets

	2009			2008		
	Cost	Accumulated amortization	Net book value	Cost	Accumulated amortization	Net book value
Operating Fund						
Office furniture and equipment	\$ 613	123	490	613	61	551
